[First Hualong One nuclear unit in GBA officially enters commercial operation](#)

The first Hualong One nuclear project in the Guangdong-Hong Kong-Macao Greater Bay Area (GBA), the Unit 1 of China General Nuclear Power Group (CGN) Taipingling nuclear power project in Huizhou, South China Guangdong Province, was officially put into commercial operation on Monday, the Global Times learned from CGN on Monday.

Capable of generating more than 9 billion kilowatt-hours of electricity per year, it can cover the annual power consumption of millions of residents across the GBA.

Unit 1 of the project has completed all performance tests and a 168-hour continuous full-load operation assessment, and currently all parameters are...
